SCULPTING MESSAGE - a New Wave Of Massage

Our Sculpting Massage technology is 100% effective and natural. This is a new way of massaging that is taking the body sculpting and massage industries to a new level.

Our **patented technology** allows therapists to work in a new way that has never been utilised before, giving another beneficial option for clients.

This unique approach provides a quality and powerful treatment that works on the micro-lymphatic system, by releasing stagnation from the **extra cellular matrix**, helping the body rejuvenate with every massage.

Our specialty

We provide one of the most innovative pieces of equipment, Sculpting Massage - to revolutionize the way massage, body sculpting and rejuvenating well being treatments are performed.

Our focus is on the sales and training of Sculpting Massage equipment and its many benefits for the extra cellular matrix - the superficial lymph - which surrounds every cell in the body. The ECM is an "eco-system" that needs to remain an open flowing network.

Our modern lifestyle can lead to a slowing down of fluid in the ECM, which can lead to stagnation, inflammation, fluid retention, and fatty build up.

UNBLOCK THE EXTRACELLULAR MATRIX

Sculpting Massage is a scientifically proven industry leading treatment that can help to mobilize the extra cellular matrix, helping to bring long lasting sculpting and well being benefits for the body and face! That's right, it sculpts the face as well... naturally!

Who benefits?

Sculpting massage caters to all clients' specific massage needs. It benefits those looking for sculpting and toning with their massage, but additionally treats an exciting choice of six specific massages:

TONED TIGHT TERRIFIC - intensified sculpting

BYRON BLISS - natural luxury pampering

HARD YAKKA - occupational well being

ATHLETIC SPIRIT - sports recovery

RED OCHRE - soul journey

KAKADU KLEANSE - invigorating detox
